per 100,000

Sexually Transmitted Infections rate

Births to teen mothers

per 1,000

Low birth-weight babies

Inadequate prenatal care

per 100 births

KEY COUNTY CONCERNS:

The projected increase in the county's older population will likely strain the health care system.

Even though the county has a low poverty rate, the number of people living in poverty is increasing.

Nearly 50,000 Johnson Countians are without health insurance.

The county, like the nation, continues to see rising obesity rates.
