per 1,000 Medicare enrollees

Adults who smoke

Adults who are obese

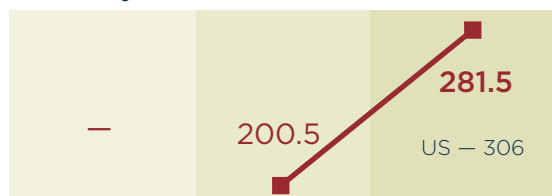

Auto crash deaths

per 100,000

Sexually Transmitted Infections rate

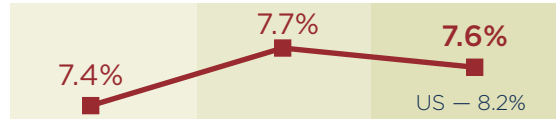

Births to teen mothers

per 1,000

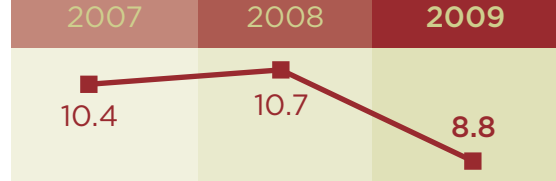

Low birth-weight babies

Inadequate prenatal care

per 100 births

KEY COUNTY CONCERNS:

The projected increase in the county's older population will likely strain the health care system.

The county, like the nation, continues to see rising obesity rates.

While smoking rates are declining, they are still significantly higher in Ray County than the national average.

With no psychiatrists based in the county, residents lack easy access to mental health care, and the low number of dentists per capita may make it more difficult to get oral health care.
